POMP, CIRCUMSTANCE, AND OTHER SONGS OF A LIFETIME

—by Professor David Citino, 1947-2005, Late University Poet Laureate
(Originally presented as the 2000 Winter Commencement address)

If you're like me, you've got a big head,
not to mention a funny robe, full of music—
poems and melodies, the tunes
we move to, shower and shave by,
study, write to. Not just the incidental,

but the momentous music keeping time.
Our histories are measures of song.
Listen to your heart: drums of Africa,
sea-spume of blind, far-sighted Homer,
Sappho's honeyed love lyrics. Often,

music speaks for us, one note saying
a thousand words. Like Rodolpho
in Puccini's *La Bohème*, *Sono un poeta.*
I am a poet. *Che cosa faccio? What*
do I do? Scrivo. I write. This ceremony

is loud music—pomp and circumstance
of the life you began freshman year
or that first day of graduate school.
In my head I press Play, and the CD
of *Big Days* kicks on. I leap and linger

over moments too sweet, nearly, for words.
I'll never escape rhymes from the nursery.
Up above the world so high, like a diamond
in the sky. We knew from the start
our universe was aglow with wonder.

Italian, Latin, English songs in nasal accents
of Cleveland. *Gaudeamus igitur, Juvenes*
dum sumus. So, let us rejoice, while
we are young. Youth is that gift we can't
comprehend while we're young. This ceremony

means you all are less young than you were.
Don't let the heavy knowledge gained
from your studies deprive you of the gifts
of youth, to be able to rejoice at the drop
of a hat, to care for, be moved by others.

Now I hear golden hits of five decades.
Big Mama Thornton, and that so-called King
(King of what, fried butter sandwiches?)
who stole away her hound dog. You ain't
never killed a rabbit, you ain't no friend

of mine. As with those profs and TAs,
course after course, you had to produce—
kill some rabbits—to earn respect.
And at times OSU may have seemed
like Heartbreak Hotel, down at the end

of Lonely Street, so difficult was it
to do your best. Tennessee Ernie Ford,
"Sixteen Tons": St. Peter don't you
call me 'Cause I can't go. I owe
my soul to the company store.

You have been digging deep in mines
of knowledge. We all owe our souls
to Ohio State, company store of learning,
shared experience—precious ore
we have in common forever.

Now I hear Domenico Modugno's
fervent urging to wish, sing, fly,
Volare, Wo-oo. Cantare, Wo-o-o-o.
My grandfather was a peasant farmer,
a contadino in Calabria in the toe

of Italy. He knew it's the human lot
to dream of flying: Lucky, lucky,
lucky me, I'm a lucky son-of-a-gun.
I work eight hours, I sleep eight hours,
That leaves eight hours for fun.

Hey! He sailed in steerage across
the Atlantic, came to Cleveland, where
he stayed long enough to work 52 years
for the B&O Railroad, before lying down
to rest in good Ohio soil. So many of us

here today came from elsewhere,
or ancestors did. From Tennessee, Italy,
Africa, Asia, Appalachia—even,
President Kirwan, the wilds of Kentucky
and Maryland. Women and men with backs

supple as birch trunks. The courage
it took to pick up stakes and begin again
in a new world! Think of the work
those older ones did. For you. You all
are facing a change right now.

This sheepskin is your passport.
You're bound for emigration to
the next song of your life. Ohio State
is the ark on which you've been sailing.
You've been the precious cargo.

But, as Noah once said, I can see
clearly now the rain is gone. The ark,
our university, was filled to overflowing
with the diversity of us. Diversity.
Networks and talk shows devalue the word.

Alma Mater—Carmen Ohio

Graduates and guests led by
Chelsea R. Hart

Oh! Come let's sing Ohio's praise,

And songs to Alma Mater raise;

While our hearts rebounding thrill,

With joy which death alone can still.

Summer's heat or Winter's cold,

The seasons pass, the years will roll;

Time and change will surely show

How firm thy friendship—Ohio.

Interim President Alutto looks forward to personally congratulating graduates on the stage for one hour immediately following the ceremony.

COMMENCEMENT ADDRESS

R.L. Stine

R.L. Stine is an award-winning author and one of the best-selling children's writers of all time. A native of Columbus, Mr. Stine earned his bachelor's degree in English from The Ohio State University in 1965. After graduation, he moved to New York City to begin his writing career. Since then, he has written nearly 400 books for children and young adults and sold more than 350 million copies.

At 9 years old, he began composing jokes and funny stories after he discovered an old typewriter in his attic. His penchant for humor writing continued as his career progressed. During his time at Ohio State, Mr. Stine was editor-in-chief of *The Sundial*, the university's student-produced humor magazine, where he wrote under the name Jovial Bob Stine. Students credit Mr. Stine with helping to re-launch the Sundial

organization several years ago, and it remains active today.

In the mid-1970s, Mr. Stine created *Bananas*, a humor magazine for teenagers. In 1986, he made the transition from humor to horror writing with the release of *Blind Date*. Three years and a handful of novels later, Mr. Stine created the *Fear Street* horror series for teens, which grew to include more than 100 novels, eventually selling more than 80 million copies.

Mr. Stine found international acclaim in 1992, when he launched the *Goosebumps* series for children ages 8 to 12 years old. Featuring a combination of horror and humor, the series became a worldwide phenomenon translated into 32 languages. The *Goosebumps* TV show followed and was the No. 1 kids' show in the United States for three years in a row.

In July 2013, Mr. Stine released his newest teen horror novel, *A Midsummer Night's Scream*. His TV series, "R.L. Stine's The Haunting Hour," now in its fourth season, recently won a Daytime Emmy Award for Outstanding Children's Series. In 2012, Mr. Stine released *Red Rain*, an adult horror novel that he wrote for loyal adult fans who had grown up reading his books in the '90s.

As recognized by *USA Today*, Mr. Stine was the best-selling author in the United States from 1993 to 1995. He has received several Disney Adventures Kids' Choice Awards, Nickelodeon Kids' Choice Awards and American Library Association Awards. In 1999, he received a Lifetime Achievement Award from the Ohioana Library Association. Mr. Stine is also dedicated to the promotion of literacy, and in 2002, he received the Champion of Reading Award from the Free Public Library of Philadelphia.

RECIPIENTS OF HONORS

The Joseph Sullivant Medal

The Joseph Sullivant Medal was established in 1920 with a fund endowed by Thomas C. Mendenhall, Ohio State professor of physics. The Sullivant Medal is awarded every five years for "an admittedly notable achievement on the part of a son or daughter of the university, whether that achievement be in the form of an important invention, discovery, contribution to science, the practical solution of a significant engineering, economic, or agricultural problem, or the production of a valuable literary, artistic, historical, philosophical, or other work." (Thomas Mendenhall, 1920).

Ellen Mosley-Thompson

Ellen Mosley-Thompson, an internationally acclaimed climate scientist, is a Distinguished University Professor in the Department of Geography and director of the Byrd Polar Research Center at The Ohio State University. Her pioneering research on paleoclimatic reconstruction has led to some of the most important data providing deeper insight on past and present climate change.

Dr. Mosley-Thompson's research focuses on using ice cores to reconstruct climate conditions from hundreds of thousands of years ago. She uses the chemical and physical properties preserved in ice cores—such as dust and chemical content and isotopic ratios reflecting atmospheric temperature at the time the ice layers formed—to establish past climatic and environmental conditions. Published in more than 130 research publications, her ice core discoveries have led to scientific and societal

concerns about global warming. Her observations of glacier retreat over the last three decades confirm that glaciers are melting and provide evidence that the warming of Earth over the last 50 years is now outside the range of natural variability.

Dr. Mosley-Thompson has led 16 expeditions to Antarctica, Greenland and Peru to retrieve ice cores. She served as the principal investigator and field team leader for the ice core drilling project on the Bruce Plateau in the Antarctic Peninsula, which was part of LARISSA (LARsen Ice Shelf System, Antarctica), an initiative funded by the National Science Foundation.

Her service activities at Ohio State and across the nation are exceptional. In 2011, she was elected to the American Academy of Arts and Sciences. She also is a member of the American Philosophical Society and in 2009 she was elected to the National Academy of Sciences, where she currently serves on the Study Group for Emerging

Research Questions in the Arctic and on the Polar Research Board. She is a fellow of the American Geophysical Union and the American Association for the Advancement of Science. In 2003, she was inducted into the Ohio Women's Hall of Fame.

At Ohio State, Dr. Mosley-Thompson serves on the faculty advisory board for the Energy and Environment Discovery Theme, the Presidential Committee of AAAS Fellows and the President and Provost's Advisory Committee. She has been named University Distinguished Lecturer and University Distinguished Scholar, and she has received an Alumni Medalist Award and the Faculty Award for Distinguished University Service.

Dr. Mosley-Thompson received her bachelor's degree in physics from Marshall University, and her master's and doctorate in geography (climatology) from Ohio State. She joined the Byrd Polar Research Center in 1979.

Lonnie G. Thompson

Lonnie G. Thompson is a Distinguished University Professor in the School of Earth Sciences and a senior research scientist in the Byrd Polar Research Center at The Ohio State University. As one of the world's foremost authorities on paleoclimatology and glaciology, he has become a national spokesperson on the subject of global climate change and related policy issues.

Dr. Thompson has led 58 expeditions during the last 35 years, drilling ice cores from polar ice sheets and high-altitude mountain glaciers in 16 countries, including China, Peru, Russia, Tanzania and Indonesia. His team was the first to develop lightweight solar-powered drilling equipment to obtain cores from ice fields in the Andes Mountains, the Himalayas and on Mount Kilimanjaro. His expeditions have recovered the world's longest ice core from a mountain range (Alaska, 2002),

the first tropic ice core (Peru, 1983) and cores dating more than 750,000 years old.

The cores retrieved during these expeditions contain climate records layered in time that allow Dr. Thompson's team to reconstruct Earth's complex climate history and provide insight into the changes occurring on our planet today. In 2001, he shocked the public and scientific community when he announced that analysis of ice cores from mountaintop glaciers in Africa and Peru showed that the glaciers were melting at an alarming rate—one that will likely lead to the disappearance of Mount Kilimanjaro's ice fields within the next decade or so.

Dr. Thompson's research, published in more than 200 research publications, has garnered him numerous awards. In 2007, he received the Seligman Crystal, the most prestigious professional award in glaciology, and the National Medal of

Science, the highest honor given to an American scientist. In 2005, he was elected to the National Academy of Sciences and was awarded the Tyler Prize for Environmental Achievement. He has been selected by *Time* magazine and CNN as one of "America's Best" in science and medicine. Additionally, Dr. Thompson is a fellow of the American Association for the Advancement of Science and the American Geophysical Union. He is a member of the Chinese Academy of Sciences and in the past two years, he has received the Friendship Award and the International Scientific and Technological Cooperation Award, both from the People's Republic of China.

Dr. Thompson earned his bachelor's in geology from Marshall University, and his master's and doctorate in geology from Ohio State. He joined the Byrd Polar Research Center in 1976.

RECIPIENTS OF HONORS

Leonard Berkowitz

DOCTOR OF SCIENCE

Leonard Berkowitz is one of the world's preeminent social psychologists, and one of the first to systematically employ experimental research when investigating human aggression. Since the early 1950s, he has been a faculty member at the University of Wisconsin-Madison, where he has served as the Vilas Research Professor in Psychology Emeritus since his retirement in 1993. Over the course of his distinguished 60-year career as a scholar, researcher and educator, Dr. Berkowitz has trained some of the most prominent social psychology scholars, and his research and writings have helped spur and shape the current great interest in the social psychology of aggression.

Dr. Berkowitz's research focused on the causes and consequences of human aggression, and his theoretical contributions have had substantial implications for the broader field of social psychology as well as other social sciences, such as communications and sociology. He was a

pioneer in showing that human aggression has both automatic and controlled components, and he was one of the first to challenge the theory of catharsis, which proposed that behaving aggressively, or watching others behave aggressively, relieves aggressive tendencies.

Dr. Berkowitz has shared his expertise by testifying before numerous Congressional and U.S. Surgeon General Committees on the effects of violent media. He also has published nearly 200 research publications and two seminal textbooks on aggression. Most aggression researchers have studied from one of his textbooks, *Aggression: A Social Psychological Analysis* (1962) and *Aggression: Its Causes, Consequences, and Control* (1993), which have been cited more than 3,000 times. Dr. Berkowitz further shaped the field of social psychology as founding editor of the prestigious peer-reviewed *Advances in Experimental Social Psychology* series, which he edited from 1962 to 1988.

Listed as one of the 100 most eminent psychologists of the 20th century by the American Psychological Association, Dr. Berkowitz was elected to the American Academy of Arts and Sciences. He also has received the American Psychological Association's Distinguished Scientific Award for the Applications of Psychology (1988), the Society of Experimental Social Psychology's Distinguished Scientist Award (1989) and the Association for Psychological Science's James McKeen Cattell Fellow for applied psychological research (1993). He served as president of the American Psychological Association's Division of Personality and Social Psychology from 1971 to 1972 and as president of the International Society for Research on Aggression from 1981 to 1983.

Dr. Berkowitz earned his bachelor's degree in psychology from New York University in 1948, and a doctorate in psychology from the University of Michigan in 1951.

RECIPIENTS OF HONORS

Rudine Sims Bishop

DISTINGUISHED SERVICE AWARD

Rudine Sims Bishop is a professor emerita in the College of Education and Human Ecology at The Ohio State University. As a leading literary scholar, Dr. Bishop has influenced the growth and appreciation of multicultural children's literature on an international level.

Dr. Bishop began her career in 1959 as an elementary school teacher. She earned her bachelor's degree in elementary education from West Chester University, her master's in education from the University of Pennsylvania and her EdD in curriculum development (reading and children's literature) from Wayne State University. Prior to her arrival at Ohio State in 1986, Dr. Bishop taught children's literature, reading and language arts courses at Morgan State College, Wayne State University, the State University of New York at Buffalo and the University of Massachusetts Amherst.

In 1982, with the publication of her

seminal book, *Shadow and Substance: Afro-American Experience in Contemporary Children's Fiction*, Dr. Bishop became one of the first researchers to produce scholarly criticism about how African Americans are represented in children's books and the impact that representation has on children's lives. In the ensuing decades, she has published extensively, including books, chapters and articles in prestigious academic journals.

At Ohio State, Dr. Bishop taught children's literature courses from 1986 until her retirement in 2002. During that time, she served on numerous university committees; directed doctoral research; chaired the Language, Literacy and Culture section in the Department of Teaching and Learning; and co-chaired the highly regarded annual Children's Literature Conference at Ohio State. She was known for establishing long-lasting relationships with her students and for making her massive, private collection of

children's literature available to the Ohio State community. In 2004, her family, friends and colleagues established the Dr. Rudine Sims Bishop Scholarship Fund in Children's Literature to support doctoral students at Ohio State.

For her contributions to the field of children's literature, Dr. Bishop has garnered significant recognition. The National Council of Teachers of English has recognized her with the James R. Squire Award for outstanding service to the council and to the profession of education, as well as the council's Outstanding Elementary Language Arts Educator and Distinguished Service awards. In 2001, she was inducted into the Reading Hall of Fame. She also has received the Arbuthnot Award, given to an outstanding college or university teacher of children's or young adult literature, and served on the selection committees for the Caldecott and Newbery medals for children's books.

Daniel J. Wampler

DISTINGUISHED SERVICE AWARD

Daniel J. Wampler's relationship with The Ohio State University spans more than 30 years, dating back to his days as an undergraduate student. After graduating with a bachelor's and a doctorate in food technology from Ohio State, as well as an MBA from Xavier University, Dr. Wampler embarked on a successful food science career while maintaining strong philanthropic and leadership ties to the university.

In 1983, Dr. Wampler parlayed his Ohio State education into a position at The Pillsbury Company where he served as a product development scientist. His team developed more than \$10 million in products and launched Pillsbury as the leader in microwave products. Dr. Wampler's professional success continued as he served in positions of increasing responsibility for a variety of companies.

In 1999, Dr. Wampler collaborated with his alma mater to launch his own business.

Sensus was born in the labs of Ohio State's Food Industries Center, where Dr. Wampler channeled his passion for food innovation into creating one of the nation's premier natural product extraction companies. In 2012, he sold Sensus to an international company.

Dr. Wampler brings his considerable expertise and passion to bear in championing countless causes at Ohio State. He serves on the University Foundation Board of Directors and on the advisory boards of the Food Innovation Center and Food Industries Center. He served 10 years on the College of Food, Agricultural and Environmental Sciences alumni board, and co-chaired a capital campaign that raised \$12 million to create the Parker Food Science and Technology Building. Dr. Wampler currently co-chairs the college's *But for Ohio State* Campaign, which aims to raise \$150 million to support students, faculty and research within food science.

In addition to mentoring dozens of students, Dr. Wampler and his wife, Lisa, give back to the university in ways that advance both students and research. Together, they established two endowments within the College of Food, Agricultural and Environmental Sciences. The Lisa and Dan Wampler Endowed Fellowship for Food and Health Research funds graduate student research in critical areas of health maintenance and disease prevention. The Lisa and Dan Wampler Vice President's Excellence Fund Endowment supports long-term programs and strategic initiatives at the college.

For his extensive service and commitment, Dr. Wampler was awarded the College of Food, Agricultural and Environmental Sciences' Distinguished Alumni Award and the Department of Food Science and Technology's first-ever Difference Maker Award.

A MESSAGE FROM INTERIM PRESIDENT ALUTTO

Dear Graduates:

As your journey as an Ohio State student comes to a close, remember to revel in these moments of celebration. Today's commencement ceremony serves to recognize your achievement, which is certainly no small feat. I know that the thousands of family members, friends and fellow graduates who have gathered here today would agree.

It is always a wonderful day to be a Buckeye but today is extra special. You have accomplished much and overcome challenges along the way: cramming for exams, waking up for an 8 a.m. class and lugging textbooks to Thompson Library to study, at times through "Summer's heat or Winter's cold." More important, you have been exposed to new people, places and ideas—some of which have developed your skills and changed your perspectives. Armed with this new knowledge, you join a proud network of Ohio State alumni working as leaders in our communities, throughout our nation and around the world.

Know that opportunities abound for those who hold a college degree. Allow your passion to fuel imagination into action. It is important to remember that there are countless pathways to any destination, each with its own benefits. What you achieve along the way opens new doors to even more opportunities. So as you count down to receiving your diploma, consider this: As an Ohio State graduate, what will you accomplish first?

Sincerely,

Joseph A. Alutto
Interim President

CONGRATULATIONS AND WELCOME TO THE ALUMNI ASSOCIATION

On behalf of The Ohio State University Alumni Association, we congratulate you on your academic achievement! For you, one era has passed and another is about to begin. As you receive your degree today, you join a distinguished body of more than 500,000 Ohio State alumni who are making a difference in all parts of the world.

The degree you hold in your hand today is the culmination of the well-rounded education you have received at Ohio State. You are among a distinguished group of alumni, for today's alumni are tomorrow's leaders. We encourage you to build on your many accomplishments by doing something great: pay forward to your communities and your alma mater to make a difference in the lives of others.

We want you always to be passionate about your alma mater and continue to stay connected and actively engaged in many ways, including:

- virtually through our Facebook and Twitter pages
- visiting our website at ohiostatealumni.org
- attending Alumni Association events
- getting involved with alumni clubs and societies

As of today, you also become a member of the Alumni Association. To learn more about the different membership levels and benefits, please visit ohiostatealumni.org/membership.

We celebrate you today and wholeheartedly share in your enthusiasm and all that you have achieved. Your success is driving Ohio State's move from excellence to eminence, and we will continue to count on you to carry on the university's rich and vibrant tradition and reputation.

Again, congratulations to you, your family, friends and all who have helped you reach this milestone in your life as you receive your diploma from The Ohio State University.

Sincerely,

Christopher A. Ito
Chair, Board of Directors
The Ohio State University Alumni Association, Inc.

Archie Griffin
Senior Vice President for Alumni Relations
President/CEO
The Ohio State University Alumni Association, Inc.

It's just not the same without you.

BUT FOR OHIO STATE

Your connection to Ohio State lasts long after graduation.

Commemorate that connection as graduates have done for more than 100 years by making a class gift to the university. Gifts of all sizes are welcome and those totaling \$75 or more will make you a Sustaining Member of The Ohio State University Alumni Association.

Sustaining Members are eligible for premium benefits including:

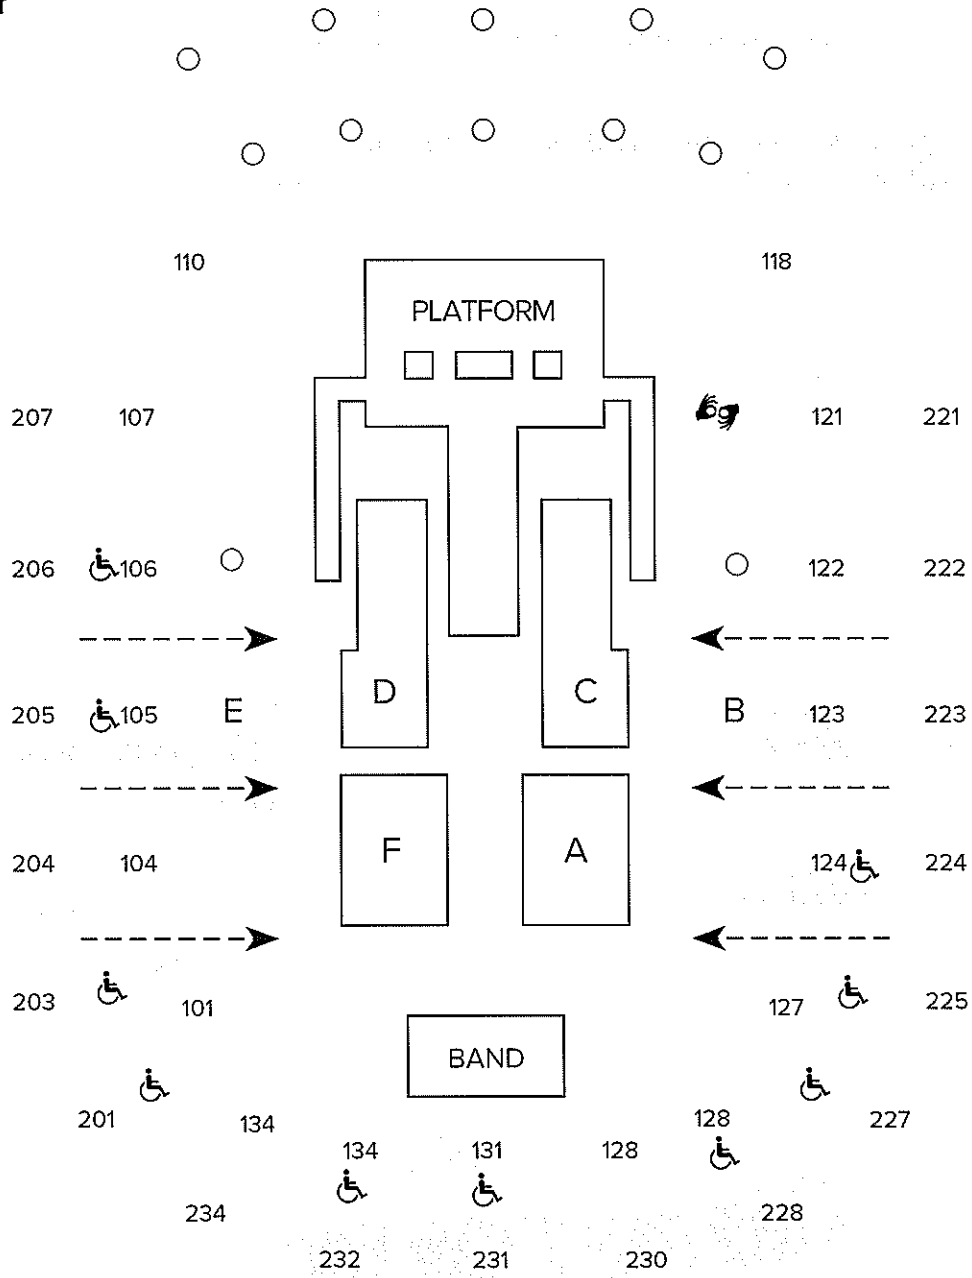

- Eligibility for the 2014 football ticket lottery
- Access to programs designed for new graduates of Ohio State
- A one-year subscription to *Ohio State Alumni Magazine*

All graduates of Ohio State receive these alumni benefits:

- Access to the Bill and Susan Lhota Office of Alumni Career Management
- Alumni Association online services including access to an alumni directory, lifetime email and the alumni online library
- Discounts from OSUAA affinity partners

For more on the benefits for new graduates of Ohio State, visit go.osu.edu/YoungAlumni, and to make a class gift to the university, visit studentcampaign.osu.edu.

This program is not an official graduation list.

This printed program lists students who were eligible to graduate for Autumn Semester 2013, as of 5:00 p.m., December 3, 2013, pending the outcome of final examinations and final grades. Therefore, it should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the University Registrar, Student Academic Services Building, 281 West Lane Avenue, Columbus, OH 43210-1132.

THE ACADEMIC COSTUME

The colorful ceremonies of The Ohio State University commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some

aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard

square—a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship, for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral and master's degrees, not only indicates the type of degree, but also is lined with the official colors of the university.

The Gown

Bachelor: The bachelor gown is black, full cut with long pointed sleeves.

Master: The master gown is black, long or short sleeves, with an arc-shaped panel extended for each sleeve.

Doctor: The Ohio State University Doctor of Philosophy gown is scarlet with gray velvet panels on the front and three velvet bars on each sleeve. Other doctor gowns are black with velvet panels and bars, the color of which is distinctive of the field of study.

Honors Emblem

The Ohio State University honors emblem is a scarlet and gray tasseled braid worn over the gown. Students eligible for this curricular honor are those graduating *summa cum laude*, *magna cum laude*, *cum laude*, *with distinction* and *with honors*.

The Hood

Bachelor: Three feet long with a two-inch-wide velvet edging.*

Master: Three and one-half feet long with a three-inch-wide velvet edging.

Doctor: Four feet in length with a five-inch-wide velvet edging and panel at the sides.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study.

* Not usually worn by candidates for a degree.

Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel whose color is distinctive of the degree being received. The tassel colors are as follows:

Graduate School (PhD)	Gray

POMP, CIRCUMSTANCE, AND OTHER SONGS OF A LIFETIME

(continued from inside front cover)

I say, rather, the richness of us,
precious difference, the grand multiplicity
of selves that balance this globe
and enable it to spin true. Grandson
of peasant immigrants, I was given

the opportunity to earn a doctorate
in English literature from Ohio State—
because my family labored long nights
around the kitchen table trying to learn
this arduous English. I sat where

you're sitting twenty-six years ago.
Bob Dylan and Smokey Robinson got me
through. Yes, it took a prophet and Miracles!
My son earned an OSU Ph.D. in history.
Now you, graduates, are being honored—

by degrees. We've all come together
around the kitchen table of Ohio State.
Ohio, Round on the ends and high
in the middle. For the years to come
we'll sing together, Beautiful Ohio,

in dreams again I see, Visions of what
used to be. These psalms, sacred thoughts
of our tribes, 78's and 33's, tapes,
CD's—they take up space in shelves
of our skulls, our hearts. They remind us

we want a song beyond the run-
of-the-mill thrill, the moment throbbing
with pleasure or bathed in the blues.
We ache for something grander than
pure selfishness. Songs sung for one

alone are not true music. Arias shared
are music of the spheres, ways of saying
to another something from the soul.
Of course the Buckeye Battle Cry
is there. Drive, drive on down the field,

Men (and women!) of the Scarlet
and Gray. Well, you drove on down
the field, and you drove up and down
the streets, around and around
crowded lots, looking for a place to park,

and you searched our dark, ancient library
for a decent place to study. My wife,
Mary's; father marched in the first
"Script Ohio," in 1936. He's here today
with us, blowing his horn, I can't help

but feel, as is the sweet mother
I lost last year, the one who gave me
the stars. Today's music makes us think
of the debts we owe, and never can repay.
So many of us would not be here

were it not for the lullabies and songs
of dear parents, their parents, theirs.
Some are here today in the flesh.
Many are not. We mourn them with cadences
of our hearts. Think how many people

sang before us, gave us a name, a voice,
taught us the right words. We must
cherish them by remembering every song.
When we sing to others, we honor
our fathers and mothers, thank them

for this day of profound scarlet and gray
pomp and circumstance. O, come
let's sing Ohio's praise, And songs
to Alma Mater raise. Alma mater.
Ohio State is our sweet, nurturing mother.

We came of age here, with her help.
Well, Mother, we love you, but, like,
it's time we moved out, got a place
of our own. You're standing there,
Mom, gray hair, eyes scarlet

from crying. We won't forget you.
Now, even though this ceremony
means we're being weaned, taken off
the nipple, let's take care to cherish her
all our days. Let's remember

the words to the songs she taught us,
and pass them on. We'll remember
always, Graduation Day. Summer's heat,
and winter's cold, The seasons pass,
the years will roll, Time and change

will surely show How firm thy friendship,
O-hi-O. We call that little number
Carmen Ohio. Carmen means song
In Latin. You've worked hard; she
is your reward; today is your reward.

You're filled to overflowing with
the notes, the poems we've written
together. You know the score.
Continue to work hard for yourselves,
and one another. Find the ones who need

you to sing to, for them, in the world.
Graduates, this joyful litany, this hymn
our ancestors collaborated on with us,
the calling of your name today is music
to our ears. Sing that name proudly

all your days, as if your life depended
on it. It does, you know. It has been
an honor for me to speak—and sing—
to you today. Thank you, graduates,
and, again, Congratulations.
