## POMP, CIRCUMSTANCE, AND OTHER SONGS OF A LIFETIME

—by Professor David Citino, 1947–2005, Late University Poet Laureate  
(Originally presented as the 2000 Winter Commencement address)

If you're like me, you've got a big head, not to mention a funny robe, full of music—poems and melodies, the tunes we move to, shower and shave by, study, write to. Not just the incidental,

but the momentous music keeping time. Our histories are measures of song. Listen to your heart: drums of Africa, sea-spume of blind, far-sighted Homer, Sappho's honeyed love lyrics. Often,

music speaks for us, one note saying a thousand words. Like Rodolfo in Puccini's *La Bohème*, Sono un poeta. I am a poet. Che cosa faccio? What do I do? Scrivo. I write. This ceremony

is loud music—pomp and circumstance of the life you began freshman year or that first day of graduate school. In my head I press Play, and the CD of Big Days kicks on. I leap and linger

over moments too sweet, nearly, for words. I'll never escape rhymes from the nursery. Up above the world so high, like a diamond in the sky. We knew from the start our universe was aglow with wonder.

Italian, Latin, English songs in nasal accents of Cleveland. *Gaudemus igitur, Juvenes dum sumus*. So, let us rejoice, while we are young. Youth is that gift we can't comprehend while we're young. This ceremony

means you all are less young than you were. Don't let the heavy knowledge gained from your studies deprive you of the gifts of youth, to be able to rejoice at the drop of a hat, to care for, be moved by others.

Now I hear golden hits of five decades. Big Mama Thornton, and that so-called King (King of what, fried butter sandwiches?) who stole away her hound dog. You ain't never killed a rabbit, you ain't no friend

of mine. As with those profs and TAs, course after course, you had to produce—kill some rabbits—to earn respect. And at times OSU may have seemed like Heartbreak Hotel, down at the end

of Lonely Street, so difficult was it to do your best. Tennessee Ernie Ford, "Sixteen Tons": St. Peter don't you call me 'Cause I can't go. I owe my soul to the company store.

You have been digging deep in mines of knowledge. We all owe our souls to Ohio State, company store of learning, shared experience—precious ore we have in common forever.

Now I hear Domenico Modugno's fervent urging to wish, sing, fly, Volare, Wo-oo. Cantare, Wo-o-o-o. My grandfather was a peasant farmer, a contadino in Calabria in the toe

of Italy. He knew it's the human lot to dream of flying. Lucky, lucky, lucky me, I'm a lucky son-of-a-gun. I work eight hours, I sleep eight hours, That leaves eight hours for fun.

Hey! He sailed in steerage across the Atlantic, came to Cleveland, where he stayed long enough to work 52 years for the B&O Railroad, before lying down to rest in good Ohio soil. So many of us

here today came from elsewhere, or ancestors did. From Tennessee, Italy, Africa, Asia, Appalachia—even, President Kirwan, the wilds of Kentucky and Maryland. Women and men with backs

supple as birch trunks. The courage it took to pick up stakes and begin again in a new world! Think of the work those older ones did. For you. You all are facing a change right now.

This sheepskin is your passport. You're bound for emigration to the next song of your life. Ohio State is the ark on which you've been sailing. You've been the precious cargo.

But, as Noah once said, I can see clearly now the rain is gone. The ark, our university, was filled to overflowing with the diversity of us. Diversity. Networks and talk shows devalue the word.

## *Frank E. Shankwitz*

### DOCTOR OF PUBLIC SERVICE

Over the course of his career, Mr. Frank Shankwitz has spent more than 40 years in law enforcement while also serving in various capacities to advance the Make-A-Wish Foundation. He co-founded the illustrious nonprofit organization after he helped fulfill the wish of a boy with leukemia who wanted to be a highway patrol motorcycle officer.

Mr. Shankwitz was born in Chicago, Illinois, and raised in northern Arizona. He graduated from Prescott High School and then enlisted in the United States Air Force. In 1965, he received an honorable discharge and returned to Arizona for a stint as a technical engineer at Motorola, Inc. His public safety career started

with an assignment to the Arizona Highway Patrol, during which time he also began coaching children in the Special Olympics. Then in 1975, Mr. Shankwitz was selected to be part of a newly created 10-man motorcycle unit tasked to work throughout the state. He continued to educate children by stopping by local grade schools and presenting the importance of bicycle safety to students.

In 1980, Mr. Shankwitz met Chris, a seven-year-old boy with leukemia, who wanted to be a highway patrol motorcycle officer like the characters in his favorite television show. Mr. Shankwitz helped grant Chris' wish, a heartwarming experience that sparked the idea for the

Make-A-Wish Foundation. The nonprofit organization grants the wishes of children with life-threatening medical conditions, and has grown to 100 chapters around the world. Mr. Shankwitz was the first president and CEO, and continues to support the Make-A-Wish Foundation as a keynote speaker and Wish Ambassador for the national office. More than 350,000 wishes have been fulfilled since the foundation's inception.

Mr. Shankwitz graduated from Phoenix College in 1970. He and his wife, Kathleen, reside in Prescott, Arizona. Mr. Shankwitz has two grown daughters, three grandchildren and one great-grandson.

## The Joseph Sullivant Medal

The Joseph Sullivant Medal was established in 1920 with a fund endowed by Thomas C. Mendenhall, Ohio State professor of physics. The Sullivant Medal is awarded every five years for "an admittedly notable achievement on the part of a son or daughter of the university, whether that achievement be in the form of an important invention, discovery, contribution to science, the practical solution of a significant engineering, economic or agricultural problem, or the production of a valuable literary, artistic, historical, philosophical or other work." (Thomas Mendenhall, 1920).

### *Thomas D. Brock*

---

#### THE JOSEPH SULLIVANT MEDAL

A recognized pioneer in microbiology, Dr. Thomas Brock is a three-time graduate of The Ohio State University. His contributions and discoveries as a scholar, professor and conservationist created a solid foundation for the growing field of biotechnology and made a significant impact on a wide scope of research endeavors.

After graduating from high school, Dr. Brock joined the United States Navy. Under the G.I. Bill, he began his education at Ohio State, ultimately earning his bachelor's, master's and doctoral degrees. He worked at the Upjohn Company as a research microbiologist before joining the faculty at Western Reserve University. In 1960, he became an

assistant professor of bacteriology at Indiana University, where he was soon promoted to full professorship. Dr. Brock moved to the University of Wisconsin-Madison in 1971 and was selected as chair of the university's Department of Bacteriology in 1980.

While advancing his academic career, Dr. Brock founded and directed the Laboratory of Thermal Biology in West Yellowstone, Montana. It was within Yellowstone's geothermal hot springs that he discovered *Thermus aquaticus*, a new bacterium that could withstand temperatures of almost 100 degrees Celsius, disproving previous beliefs. This revolutionary finding rippled through multiple fields of scientific study, transforming scientists' understanding

of microbiology altogether. Dr. Brock was recently honored with the Golden Goose Award for his monumental work, and he also received numerous other professional and educational accolades.

Dr. Brock is currently the E.B. Fred Professor of Natural Sciences Emeritus at the University of Wisconsin-Madison. He has authored more than 300 scientific papers and 20 books throughout his career, including a textbook that has been translated into 12 languages and is now in its 14th edition. He and his wife, Kathie, operate the Pleasant Valley Conservancy, a 140-acre preserve in Wisconsin that is committed to ecological education and restoration.

## *Professor Sir Adrian Smith FRS*

### DOCTOR OF SCIENCE

One of the most influential statisticians in the world, Professor Sir Adrian Smith FRS has played a crucial role for nearly five decades in forging modern statistical thinking.

In his research, Professor Smith has focused on Bayesian statistics, a theoretical paradigm considered impractical for many years. However, in 1972, one year after completing his doctorate, Professor Smith published the first of two papers that would revolutionize the field of statistics. Published at a time when the computational power for scientific statistical modeling did not exist, "Lindley and Smith: Bayes Estimates for the Linear Model" unveiled the hierarchical linear model and created the framework for Bayes estimation.

Professor Smith's influence grew as he developed Bayesian methods

for solving important problems. In the 1990 article "Gelfand and Smith: Sampling-Based Approaches to Calculating Marginal Densities," he developed a ground-breaking computational strategy — known as Gibbs sampling or Markov Chain Monte Carlo sampling — that brought Bayes methods into practical relevance.

His contributions have had a far-reaching impact on society. Statistics doctoral programs now require Bayesian training and nearly every graduate program worldwide teaches Professor Smith's methods. These changes have allowed statisticians to work closely with other scientific disciplines in collecting and analyzing data, driving such innovations as election forecasting, targeted advertising and the development of drug trials.

In addition to his research achievements, Professor Smith has greatly influenced British education. From 1998 to 2008, under his leadership as principal, Queen Mary, University of London steadily rose in research rankings. During this period, he also chaired the UK Inquiry into Post-14 Mathematics Education and produced the "Smith Report," a commentary on the structure of mathematics education in Britain.

Professor Smith is a fellow of the Royal Society and past president of the Royal Statistical Society. He received a knighthood in 2011. He earned his undergraduate degree in mathematics from Cambridge and his graduate and doctoral degrees in statistics from the University of London. Currently, he serves as vice chancellor and president of the University of London.

## *Mabel Gilbert Freeman*

### DISTINGUISHED SERVICE AWARD

For nearly three decades, Dr. Mabel Gilbert Freeman was the face and voice of The Ohio State University for countless prospective Buckeyes and their families.

A pioneering force in enrollment management, Dr. Freeman helped shape some of the most transformational changes in undergraduate education at Ohio State, where she herself earned three degrees: an undergraduate degree in secondary education/English, a graduate degree in guidance and counseling and a doctorate in education policy and leadership.

In 1985, Dr. Freeman helped establish the Ohio State Honors & Scholars program. During her 15 years with the program, Dr. Freeman established strong efforts to recruit and retain high-ability undergraduates.

She also served as the university's chapter advisor and national president for the Mortar Board Senior Honor Society, which named the local chapter in her honor in 2004.

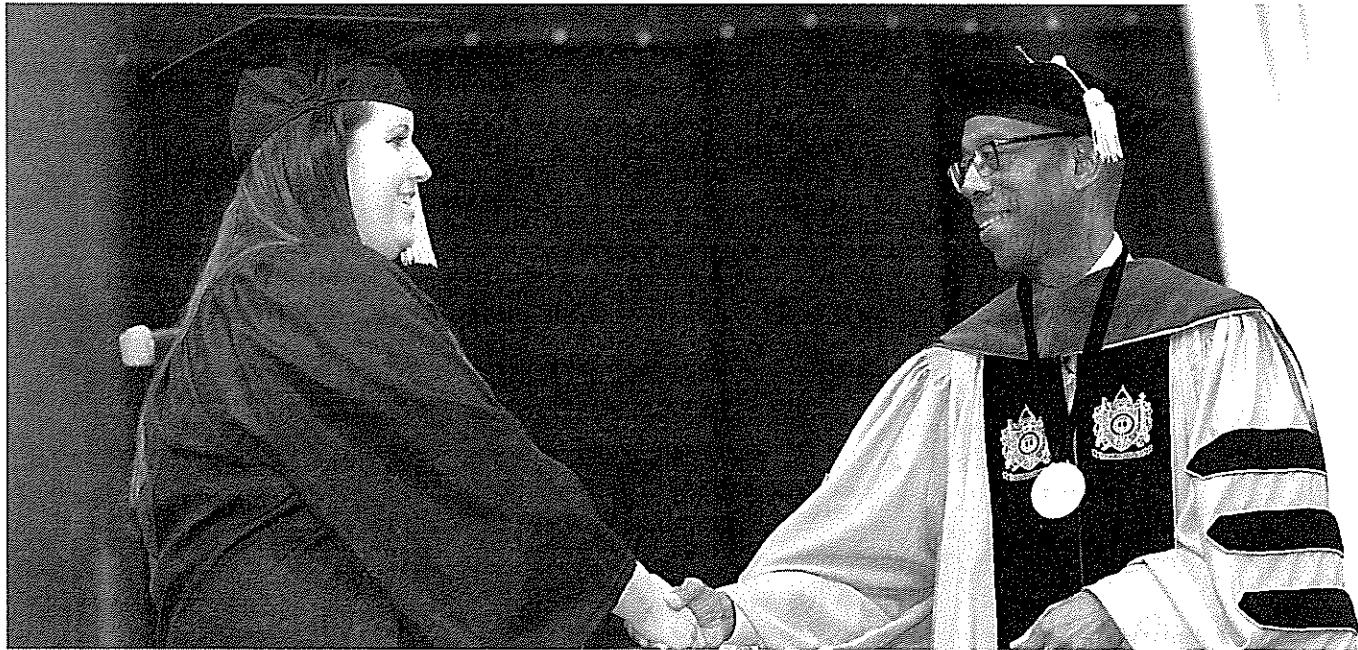

Dr. Freeman served on Ohio State's Committee on the Undergraduate Experience, which produced a landmark report regarding undergraduate experience planning. In 2000, she became assistant vice president for Undergraduate Admissions and First Year Experience. The First Year Experience (FYE) program — created by Dr. Freeman and her staff — is responsible for freshman orientation, President's Convocation, Buckeye Book Community, Distinguished Speaker Series and other programs that first-year students participate in. FYE continues to be identified as an

exemplar program in the nation today.

Under her leadership, Ohio State saw a marked improvement in freshman ACT scores, an increase in the number of students in the top 10 to 25 percent of their classes and improved access for low-income and first-generation students.

Fully committed to student success and access, Dr. Freeman has long participated in many local, state and national organizations, including the I KNOW I CAN college access program, the Junior League of Columbus, The College Board, the American College Testing Service, the National and Ohio Associations for College Admission Counseling and the Bexley Education Foundation. Most recently, she has been working to improve access and outcomes for students at Columbus State Community College.

## A MESSAGE FROM PRESIDENT DRAKE

Dear Graduates:

Congratulations on earning the diploma soon to be in your hands. Commencement is a joyous occasion at Ohio State as years of academic study are celebrated. This is a milestone achievement, one that gives the green light to begin your next chapter. While you anticipate what is ahead, also consider how much you have gained as an Ohio State student.

During your time on campus, you have absorbed a great deal of knowledge, the true currency of today's society. Inside the classroom, through a leadership position or by way of a research endeavor, you have learned more than is easily realized. That is certainly a feeling to cherish! In turn, thank you for embracing the university's values through those various opportunities. It is our students who create the ultimate fabric of Ohio State.

Today is your day, and I encourage you to acknowledge those individuals who helped make it happen. Whether they are sitting in the stands or congratulating you from afar, they have contributed to the success of your academic profile in many ways. So thank loved ones for the brown bag lunches that fueled you and thank teachers for the resources that guided you. Much of what you have accomplished can be traced back to the support of others along the way.

The university exists to develop tomorrow's lead problem solvers. I sincerely hope each of you will go forth and make a difference as an Ohio State graduate. Be curious enough to ask questions and passionate enough to find answers. This is the spirit of a Buckeye for life. Congratulations once again!

Sincerely,

Michael V. Drake, MD  
President

# CONGRATULATIONS AND WELCOME TO THE ALUMNI ASSOCIATION

---

On behalf of The Ohio State University Alumni Association, we congratulate you on your academic achievement! For you, one era has passed and another is about to begin. As you receive your degree today, you join a distinguished body of more than 500,000 Ohio State alumni who are making a difference in all parts of the world.

The degree you hold in your hand today is the culmination of the well-rounded education you have received at Ohio State. You are among a distinguished group of alumni, for today's alumni are tomorrow's leaders. We encourage you to build on your many accomplishments by doing something great: pay forward to your communities and your alma mater to make a difference in the lives of others.

We want you always to be passionate about your alma mater and continue to stay connected and actively engaged in many ways, including:

- virtually through our Facebook and Twitter pages
- visiting our website at [osu.edu/alumni](http://osu.edu/alumni)
- attending Alumni Association events
- getting involved with alumni clubs and societies

As of today, you also become a member of the Alumni Association. To learn more about the different membership levels and benefits, please visit [osu.edu/alumni/membership](http://osu.edu/alumni/membership).

We celebrate you today and wholeheartedly share in your enthusiasm and all that you have achieved. Your success is driving Ohio State's motto, *Education for Citizenship*. We will continue to count on you to carry on the university's rich and vibrant tradition and reputation.

Again, congratulations to you, your family, friends and all who have helped you reach this milestone in your life as you receive your diploma from The Ohio State University.

Sincerely,

Marchelle E. Moore

This program is not an official graduation list.

This printed program lists students who were eligible to graduate for Autumn Semester 2015, as of 5:00 p.m., December 9, 2015, pending the outcome of final examinations and final grades. Therefore, it should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the University Registrar, Student Academic Services Building, 281 West Lane Avenue, Columbus, OH 43210-1132.

# THE ACADEMIC COSTUME

The colorful ceremonies of The Ohio State University commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some

aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard

square—a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship, for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral and master's degrees, not only indicates the type of degree, but also is lined with the official colors of the university.

## The Gown

**Bachelor:** The bachelor gown is black, full cut with long pointed sleeves.

**Master:** The master gown is black, long or short sleeves, with an arc-shaped panel extended for each sleeve.

**Doctor:** The Ohio State University Doctor of Philosophy gown is scarlet with gray velvet panels on the front and three velvet bars on each sleeve. Other doctor gowns are black with velvet panels and bars, the color of which is distinctive of the field of study.

## Honors Emblem

The Ohio State University honors emblem is a scarlet and gray tasseled braid worn over the gown. Students eligible for this curricular honor are those graduating *summa cum laude*, *magna cum laude*, *cum laude*, *with distinction* and *with honors*.

## The Hood

**Bachelor:** Three feet long with a two-inch-wide velvet edging.\*

**Master:** Three and one-half feet long with a three-inch-wide velvet edging.

**Doctor:** Four feet in length with a five-inch-wide velvet edging and panel at the sides.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study.

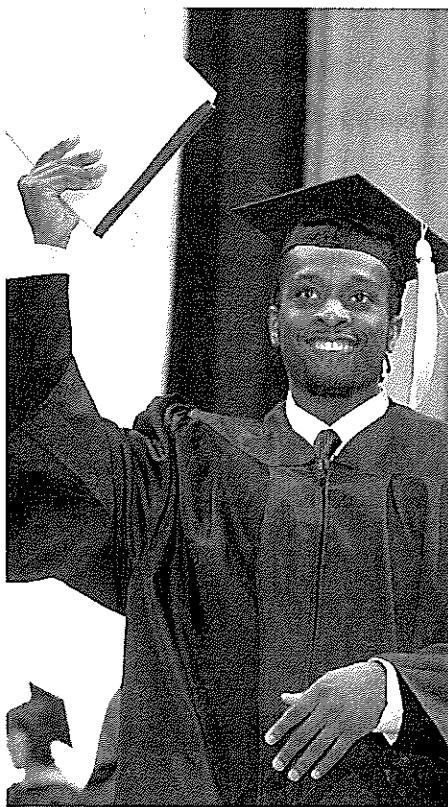

\* Not usually worn by candidates for a degree.

## Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel whose color is distinctive of the degree being received. The tassel colors are as follows:

## POMP, CIRCUMSTANCE, AND OTHER SONGS OF A LIFETIME

(continued from inside front cover)

I say, rather, the richness of us,  
precious difference, the grand multiplicity  
of selves that balance this globe  
and enable it to spin true. Grandson  
of peasant immigrants, I was given

the opportunity to earn a doctorate  
in English literature from Ohio State—  
because my family labored long nights  
around the kitchen table trying to learn  
this arduous English. I sat where

you're sitting twenty-six years ago.  
Bob Dylan and Smokey Robinson got me  
through. Yes, it took a prophet and Miracles!  
My son earned an OSU Ph.D. in history.  
Now you, graduates, are being honored—

by degrees. We've all come together  
around the kitchen table of Ohio State.  
Ohio, Round on the ends and high  
in the middle. For the years to come  
we'll sing together, Beautiful Ohio,

in dreams again I see, Visions of what  
used to be. These psalms, sacred thoughts  
of our tribes, 78's and 33's, tapes,  
CD's—they take up space in shelves  
of our skulls, our hearts. They remind us

we want a song beyond the run-  
of-the-mill thrill, the moment throbbing  
with pleasure or bathed in the blues.  
We ache for something grander than  
pure selfishness. Songs sung for one

alone are not true music. Arias shared  
are music of the spheres, ways of saying  
to another something from the soul.  
Of course the Buckeye Battle Cry  
is there. Drive, drive on down the field,

Men (and women!) of the Scarlet  
and Gray. Well, you drove on down  
the field, and you drove up and down  
the streets, around and around  
crowded lots, looking for a place to park,

and you searched our dark, ancient library  
for a decent place to study. My wife,  
Mary's, father marched in the first  
"Script Ohio," in 1936. He's here today  
with us, blowing his horn, I can't help

but feel, as is the sweet mother  
I lost last year, the one who gave me  
the stars. Today's music makes us think  
of the debts we owe, and never can repay.  
So many of us would not be here

were it not for the lullabies and songs  
of dear parents, their parents, theirs.  
Some are here today in the flesh.  
Many are not. We mourn them with cadences  
of our hearts. Think how many people

sang before us, gave us a name, a voice,  
taught us the right words. We must  
cherish them by remembering every song.  
When we sing to others, we honor  
our fathers and mothers, thank them

for this day of profound scarlet and gray  
pomp and circumstance. O, come  
let's sing Ohio's praise, And songs  
to Alma Mater raise. Alma mater.  
Ohio State is our sweet, nurturing mother.

We came of age here, with her help.  
Well, Mother, we love you, but, like,  
it's time we moved out, got a place  
of our own. You're standing there,  
Mom, gray hair, eyes scarlet

from crying. We won't forget you.  
Now, even though this ceremony  
means we're being weaned, taken off  
the nipple, let's take care to cherish her  
all our days. Let's remember

the words to the songs she taught us,  
and pass them on. We'll remember  
always, Graduation Day. Summer's heat,  
and winter's cold, The seasons pass,  
the years will roll, Time and change

will surely show How firm thy friendship,  
O-hi-O. We call that little number  
Carmen Ohio. Carmen means song  
in Latin. You've worked hard; she  
is your reward; today is your reward.

You're filled to overflowing with  
the notes, the poems we've written  
together. You know the score.  
Continue to work hard for yourselves,  
and one another. Find the ones who need

you to sing to, for them, in the world.  
Graduates, this joyful litany, this hymn  
our ancestors collaborated on with us,  
the calling of your name today is music  
to our ears. Sing that name proudly

all your days, as if your life depended  
on it. It does, you know. It has been  
an honor for me to speak—and sing—  
to you today. Thank you, graduates,  
and, again, Congratulations.
