Alma Mater—Carmen Ohio

Graduates and guests led by
John Robin Rice
Assistant Professor
School of Music

Oh! come let's sing Ohio's praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.
Summer's heat or Winter's cold,
The seasons pass, the years will roll;
Time and change will surely show
How firm thy friendship—Ohio.

Excerpts from the commencement ceremony will be broadcast on WOSU-TV, Channel 34, at 5:30 p.m. today.

Commencement Speaker

D. Allan Bromley

Doctor of Science

As a researcher, scholar, and public servant, D. Allan Bromley brought science and technology to a new level of coherence and visibility in the national consciousness.

A member of the Yale University faculty for 31 years, Bromley was named assistant to the president for science and technology, director of the White House Office of Science and Technology Policy, and chair of the President's Council of Science and Technology in 1989. As the President's chief science adviser, Bromley is in the position to influence the course of basic and applied research, as well as the development of the strong technological base that the United States must have to compete globally.

Bromley is one of the world's leading nuclear physicists and is considered the father of modern heavy ion science. With his students and collaborators, he has carried out pioneering studies on both the structure and dynamics of nuclei. The Nuclear Structure Laboratory he established at Yale is one of the world's leading laboratories in this field and has graduated more Ph.D.s in experimental nuclear physics than any other institution in the world. He has published more than 450 papers and edited 18 books, including the three-volume *Physics in Perspective*, a survey of physics undertaken by the National Research Council.

A native of Ontario, Canada, Bromley received his doctorate in physics from the University of Rochester in New York and spent two years on that university's physics faculty. After five years as a research officer with Atomic Energy of Canada Ltd., he joined the Yale University faculty, serving as chair from 1970-77. He is currently the Henry Ford II Professor of Physics at Yale, on leave from his presidential appointment.

In addition to his teaching and research, Bromley has played an active role in both national and international scientific affairs. He was president of the American Association for the Advancement of Science and has served on numerous committees of the National Research Council, the National Science Foundation, and the National Academy of Science. His many honors include the 1988 National Medal of Science.

Because of his commitment to the advancement of science in service to humanity, Bromley is respected throughout the world's scientific communities. Ohio State is proud to recognize his distinguished achievements.

Recipients of Honors

Nyle C. Brady Doctor of Humane Letters

One of the most respected and acclaimed agricultural scientists in the world today, Nyle C. Brady has made major contributions to both global and domestic agricultural communities.

Now senior consultant to the United Nations Development Program, Brady continues his lifetime work of applying science and technology to solving the problems of world famine and hunger.

A native of Colorado, Brady received his bachelor of science degree from Brigham Young University in 1941 and his doctorate in soil science from North Carolina State University in 1947. He has enjoyed a distinguished teaching career first at North Carolina State University and then at Cornell University, where he served as professor of soil science, head of the Department of Agronomy, director of the Cornell University Agricultural Experiment Station, and associate dean of the New York State College of Agriculture and Life Sciences.

During his tenure at Cornell, Brady was tapped in 1963 by then Secretary of Agriculture Orville Freeman for a two-year stint as director of science and education for the U.S. Department of Agriculture, where he worked closely with the nation's land-grant colleges and universities.

From 1973 to 1981, Brady served as director general of the prestigious International Rice Research Institute in Los Banos, Philippines, where he had a major role in sustaining the "Green Revolution" in Asia through enhanced rice production. He was also instrumental in creating the International Board for Soil Resources and Management, now located in Thailand.

Brady served from 1981-89 as senior assistant administrator for science and technology at the United States Agency for International Development, where he influenced both the global importance of soil science and agronomy.

A prolific writer and researcher, Brady authored *The Nature and Properties of Soil*, one of the most widely used soil science textbooks in the world for the past 35 years. Since 1967 he has been the editor-in-chief of the respected scientific journal, *Advances in Agronomy*, a book-length monograph that is avidly sought by agronomists internationally as a current reference.

Because of his distinguished contributions as educator, agricultural administrator, soil scientist, and humanist, Ohio State is proud to honor this eminent individual.

Robert L. Metcalf Doctor of Science

In research, teaching, and science, Robert L. Metcalf has few equals. His contributions in the fields of entomology and environmental toxicology have had enormous impact on both science and society.

Renowned for his research efforts on pesticides, model ecosystems for monitoring environmental hazards, and plant-insect interactions, Metcalf has made a lasting contribution to a safer planet. Long before concern for the environment became mainstream, he worked tirelessly to design and promote environmental compatibility as an essential property of pesticides.

A native of Columbus, Ohio, Metcalf received his bachelor's and master's degrees from the University of Illinois in 1939 and 1940 and his doctorate in entomology from Cornell University in 1943. After a brief stint with the Tennessee Valley Authority, he served on the faculty of the University of California at Riverside for 22 years. He has been a member of the University of Illinois faculty since 1968, holding appointments in entomology, biology, and veterinary pharmacology. Since 1981 he has been a professor at the University of Illinois' Center for Advanced Study.

In his 44 years in academia, Metcalf has been primary adviser to more than 70 graduate students who now hold positions throughout the world. He is the author of more than 400 scientific articles and has written or edited a number of books.

He has won major awards in several fields, including the International Award for Pesticide Chemistry from the American Chemical Society (1972), the Memorial Lecture Award of the Entomological Society of America (1978), and the prestigious Founder's Award of the Society for Environmental Toxicology and Chemistry (1984). He is an elected member of the National Academy of Sciences, the highest honor that can be bestowed on an American scientist.

Metcalf has served as a consultant for international organizations, such as the World Health Organization, and has played an active role in numerous National Academy of Sciences committees on insect control and the environment. He holds eight U.S. patents and one Canadian patent related to his career efforts to develop more readily degradable pesticides.

Ohio State is proud to recognize this distinguished scientist and concerned member of the human race for his many pioneering achievements.

Congratulations and Welcome to the Alumni Association

Congratulations on receiving your degree. You may not notice the difference, but today, along with hundreds of your colleagues, you've become an alumnus. For you, one era has passed, another is about to begin.

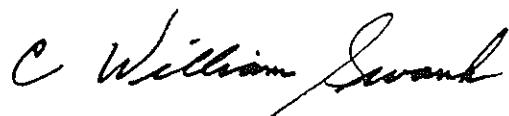

You are a member of the Buckeye family and partner in the enterprise, carrying the reputation of Ohio State through your activities and accomplishments. You exemplify the fruits of a good education: a critical mind, a discerning spirit, higher values, a sense of commitment, and the privilege of service.

You can assist the University in many ways. You can recruit new and highly qualified students. You can represent Ohio State well through personal and occupational achievements. You can participate financially through the Development Fund. And you can work in an advisory capacity with the University to improve itself and its programs to better prepare today's students for tomorrow's citizenship.

We extend to you a year's complimentary membership in the Alumni Association. Included is a year's subscription to the *Ohio State Alumni Magazine*, which will keep you informed of the University's continuing pursuit of excellence and help you keep in touch with your friends and classmates.

To you, your family, friends, and those others who helped you arrive here today go our best wishes. You are joining a great family of Ohio State alumni working together to make a difference around the world.

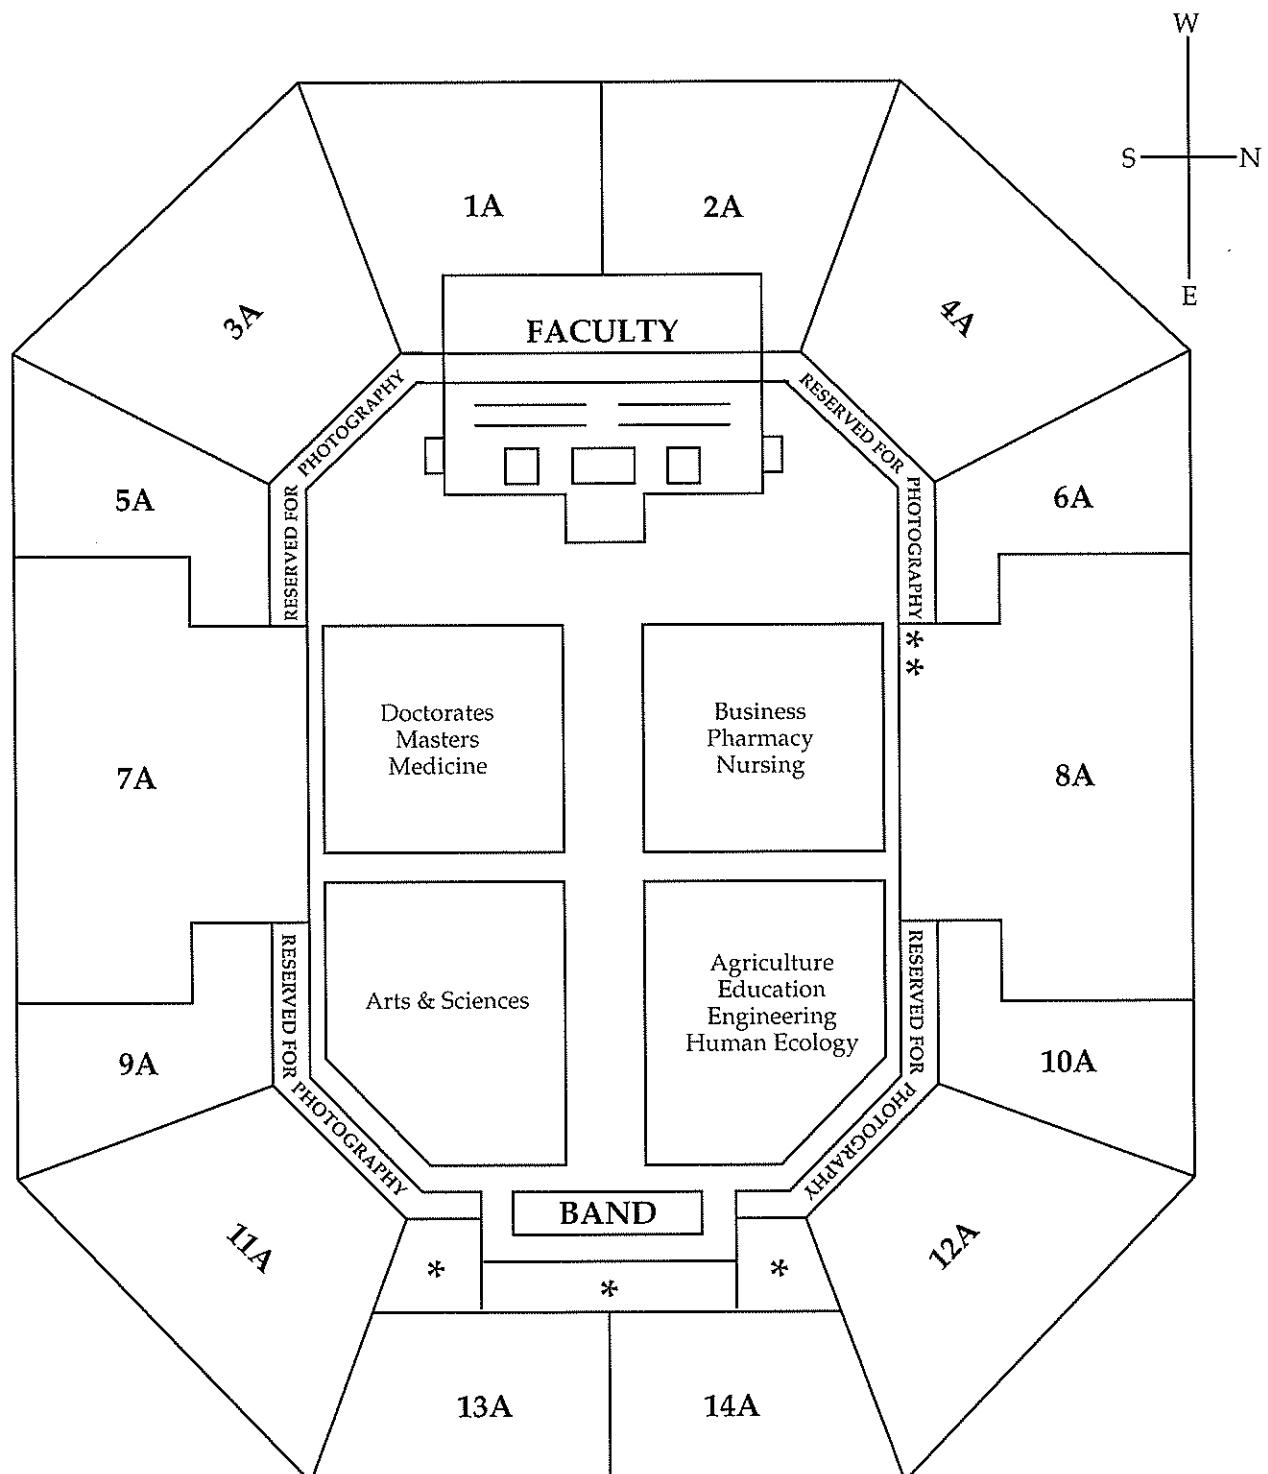

Cordially,

C. William Swank
President, Alumni Association

Graduates with Honors

Criteria for graduating with honors are as follows:

Summa Cum Laude designates those graduating in the top 3% of the class.

Cum Laude designates those graduating in the top 10% of the class.

With Distinction requires successful completion of a Senior Honors Thesis, oral examination, and graduation in the top 25% of the class.

With Honors in the Liberal Arts requires successful completion of the Arts and Sciences Honors Contract and graduation in the top 25% of the class.

With University Honors designates those graduating with curricular distinction and dedication to high educational goals.

This program is not an official graduation list.

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusion of graduates' names, or may result in use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the University Registrar, 202 Lincoln Tower, 1800 Cannon Drive, Columbus, OH 43210-1230.

The Academic Costume

The colorful ceremonies of The Ohio State University Commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In the light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns, and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard square—a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral degrees, not only indicates the type of degree, but also is lined with the official colors of the University.

The Gown

Bachelor. Black, full cut with long pointed sleeves.

Master. Black, long or short sleeves with a re-shaped panel extended for each sleeve.

Doctor. Black with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

The Hood

Bachelor. Three feet long with a two-inch-wide velvet edging.*

Master. Three and one-half feet long with a three-inch-wide velvet edging.*

Doctor. Four feet in length with a five-inch-wide velvet edging and panel at the sides.

* Not usually worn by candidates for a degree.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study:

Dentistry	Lilac
Law	Purple
Medicine	Green
Musical Arts	Pink
Optometry	Sea-foam Green
Pharmacy	Olive Green
Philosophy	Dark Blue
Veterinary Medicine	Gray

Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel whose color is distinctive of the degree being received. The tassel colors are as follows:

Graduate School	Black
Colleges of the Arts and Sciences	
College of the Arts (B.A., B.S.I.D.)	White
(Others)	Brown
School of Music (B.A.)	White
(Others)	Pink
College of Biological Sciences	White
College of Humanities	White
College of Mathematical and Physical Sciences	White
College of Social and Behavioral Sciences	White
School of Journalism	Crimson
College of Agriculture	Maize
School of Natural Resources	Blue-Green
College of Business	Drab
School of Public Policy and Management	Peacock Blue
College of Dentistry	Lilac
College of Education	Light Blue
School of Health, Physical Education, and Recreation	Sage Green
College of Engineering	Orange
School of Architecture	Blue-Violet
College of Human Ecology	Maroon

College of Medicine	Green
School of Allied Medical Professions	Green
College of Nursing	Apricot
College of Optometry	Sea-foam Green
College of Pharmacy	Olive Green
College of Social Work	Citron
College of Veterinary Medicine	Gray

The gold tassel is worn frequently by those holding the doctoral degree and by college and University administrative officers.

Honors Emblem

The Ohio State University honors emblem is a scarlet and gray tasseled braid worn over the gown. Students eligible for this curricular honor are those graduating Summa Cum Laude with Distinction, Summa Cum Laude with Honors in the Liberal Arts, Summa Cum Laude, Cum Laude with Distinction, Cum Laude with Honors in the Liberal Arts, Cum Laude with University Honors, With Distinction, With Honors in the Liberal Arts, and With University Honors.

Photographs

There will be no permanent seating in the first row of the mezzanine level. Unreserved areas of this row are set aside for your convenience in taking photographs. Only press photographers are permitted on the floor level.
