Alma Mater—Carmen Ohio

Graduates and guests led by
Loretta G. Robinson

Oh! come let's sing Ohio's praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.
Summer's heat or Winter's cold,
The seasons pass, the years will roll;
Time and change will surely show
How firm thy friendship—Ohio.

Awarding of Diplomas

Recessional

President Gee looks forward to personally
congratulating you and your graduate
immediately following the ceremony in
French Field House.

Excerpts from the commencement
ceremony will be broadcast on WOSU-TV,
Channel 34, at 5:30 p.m. today.

Commencement Address

Kathryn D. Sullivan

Former astronaut Kathryn D. Sullivan was named president and chief executive officer of COSI, Ohio's Center of Science and Industry, in 1996. As COSI's top executive, she manages all programs and activities at the center's current facility; provides oversight of the new COSI Toledo; and is overseeing the development of COSI's new home on the downtown Columbus riverfront.

Dr. Sullivan holds a bachelor of science degree in earth sciences from the University of California, Santa Cruz, and a doctorate in geology from Dalhousie University in Nova Scotia. She is currently an adjunct professor of geological sciences at Ohio State.

A veteran of three space shuttle missions, Dr. Sullivan became, in 1984, the first woman to perform a spacewalk aboard the Space Shuttle Challenger. She also flew on the Hubble Space Telescope deployment mission on the Space Shuttle Discovery in 1990 and the ATLAS-1 Spacelab flight aboard Space Shuttle Atlantis in 1992.

Education has long been a priority for Dr. Sullivan. In 1987, she developed an education program for the newly formed Challenger Center for Space Education. Her initial program was validated by professional school and museum educators and is now in place at 26 Challenger Learning Centers in the United States and Canada. As chair of the Educational Program Committee on the Challenger Center board of directors, she played a central role in strategic planning, program evaluation, and curriculum development.

Prior to her COSI service, Dr. Sullivan was appointed in 1993 by the U.S. Senate as chief scientist at the National Oceanic and Atmospheric Administration. There she oversaw the planning, budget, and execution of the agency's \$500 million research and technology programs in such diverse areas as climate and global change, satellite remote sensing instrumentation, coastal oceanography, and marine biodiversity.

She received a direct commission in the Naval Reserves in 1988 as a Naval Astronaut (Specialist). At present, she is an Oceanography Systems Project Officer with the Space and Naval Warfare Command, supporting the design and procurement of environmental sensors, command and control information systems, and tactical decision aids.

Ohio State proudly welcomes this distinguished scientist, space traveler, and educator to address today's graduating class.

Recipients of Honors

Ada E. Deer

Doctor of Humanities

Ada E. Deer was sworn in as Assistant Secretary of Indian Affairs, Department of the Interior, in July 1993. She is the first woman to hold this office since its creation in 1977. At the time of her appointment, Ms. Deer was senior lecturer in the School of Social Work and American Indian Studies Program at the University of Wisconsin, Madison. She was a candidate for the U.S. House of Representatives in 1992—the first American Indian woman to run for Congress in Wisconsin.

As assistant secretary, Ms. Deer serves as policy maker for more than 555 federally recognized tribes and nearly two million Indians served by the Bureau of Indian Affairs and is chief spokesperson for federal policy concerning American Indians.

A native of Wisconsin, Ms. Deer grew up on the Menominee Reservation and was the first member of her tribe to graduate from the University of Wisconsin in Madison where she received a bachelor of arts in social work in 1957. She received a master's degree in social work from Columbia University in 1961—the first American Indian to do so—and was a fellow at the Harvard Institute of Politics, John F. Kennedy School of Government in 1978.

She returned home to Wisconsin to lead the Menominee's struggle to restore federal recognition of their tribal status after it had been terminated in the 1950s. The Menominee Restoration Act was signed into law in 1973 and has led the way for many other tribes to restore federal recognition.

Ms. Deer is a founding director of Americans for Indian Opportunity and the American Indian Graduate Program. She was appointed by the U.S. Senate to the American Indian Policy Review Commission in 1974 and has been a client, staff member, board member, board chair, and finally, chair of the National Support Committee of the Native American Rights Fund.

She was appointed by both Presidents Carter and Reagan to the President's Commission on White House Fellowships. Her many honors include the American Indian Society's Distinguished Service Award; George Washington University's Dr. Martin Luther King, Jr., Medal for Outstanding Service in Human Rights; the National Rainbow Coalition's Achievement Award; and the Los Angeles Southwest Museum's Lifetime Achievement Award. She is the recipient of four honorary degrees.

Ohio State proudly adds its own recognition of the many achievements of this impressive national leader.

Daniel E. Koshland, Jr.

Doctor of Science

Daniel E. Koshland, Jr., is professor of biochemistry and molecular biology at the University of California at Berkeley. He served as editor of *Science* magazine from 1985 to 1995.

His pioneering research on the catalytic molecular mechanisms of enzymes has brought Dr. Koshland international recognition within the scientific community. He has contributed more than 350 articles to the scientific literature on biochemistry and biomedical research.

A native of New York City, Dr. Koshland earned his B.S. degree from the University of California, Berkeley. He worked as a chemist for Shell Chemical Company and as a group leader for the Manhattan Project before entering the University of Chicago where he received his Ph.D. in 1949. After two postdoctoral years at Harvard, he joined the staff of Brookhaven National Laboratory as senior biochemist and later held joint appointments at Rockefeller University and Brookhaven. He joined the University of California, Berkeley, faculty in 1965.

He has served as an honorary named lecturer at numerous universities and institutes throughout the nation and holds honorary degrees from the University of Chicago, Carnegie Mellon University, Simon Fraser University, Weizmann Institute of Science, Mt. Sinai School of Medicine, and the University of Massachusetts at Amherst.

Dr. Koshland has served on a number of editorial boards during his career, including chairing the editorial board of the Proceedings of the National Academy of Sciences. He helped establish and chaired the Academy Forum, a committee of the National Academy of Sciences that develops policies on issues affecting science and society.

A member of the National Academy of Sciences and the American Academy of Arts and Sciences, Dr. Koshland has served on the councils of both societies. He has also served as president of the American Society of Biological Chemists. He is a member of the American Philosophical Society and an honorary member of the Japanese Biochemical Society and the Royal Swedish Academy of Sciences.

Among his many honors are the National Medal of Science, the Edgar Fahs Smith and Pauling Awards of the American Chemical Society, the Waterford Prize, and the Merck Award of the American Society of Biochemistry and Molecular Biology.

Ohio State proudly recognizes the many contributions of this eminent man of science.

Recipients of Honors

Clifton R. Wharton, Jr.
Doctor of Humane Letters

Clifton R. Wharton, Jr., has had outstanding careers in foreign economic development, higher education, and business. As former chair and chief executive officer of Teachers Insurance and Annuity Association and the College Retirement Equities Fund, he was the first African American to head a Fortune 100 service company. From 1987 to 1993, he oversaw a total reorganization of TIAA-CREF's corporate structure and management, doubling the corporation's assets.

Prior to heading TIAA-CREF, Dr. Wharton served for nine years as chancellor of the State University of New York. Before accepting the SUNY chancellorship, Dr. Wharton was president of Michigan State University for eight years, the first African American to head a major predominately white campus in the U.S. He came to higher education after a distinguished 22-year career in foreign economic development in Latin America and Southeast Asia with the Rockefeller family's philanthropic interests.

The son of a career diplomat, Dr. Wharton entered Harvard University at age 16, receiving his bachelor's degree in history in 1947. He was the first African American to be admitted to The Johns Hopkins University School of Advanced International Studies, receiving his M.A. in international affairs in 1948. He also holds an M.A. in economics and a Ph.D. from the University of Chicago. In addition, he has received 58 honorary degrees.

Dr. Wharton has long been active in U.S. foreign policy and has held key appointments under five presidents, the most recent a brief stint in 1993 as President Clinton's Deputy Secretary of State.

Dr. Wharton is a member of the National Academy of Education, the Committee for Economic Development, and numerous professional associations. From 1981-82, he was chair of the National Association of State Universities and Land-Grant Colleges. From 1970 to 1987, he served as a trustee of The Rockefeller Foundation, becoming chair in 1982.

Among his many awards are the inaugural Black History Makers Award; the Frederick Douglass Medallion, the New York Urban League's highest honor; the President's Award on World Hunger; the Rockefeller Institute Public Service Medal; and the American Council on Education's Distinguished Service Award for Lifetime Achievement.

It is with great pride that Ohio State honors the many achievements and contributions of this eminent economist and administrator.

Wilbur A. Gould
Distinguished Service Award

Wilbur A. Gould, professor emeritus of horticulture, spent nearly four decades as a teacher, researcher, and scholar at Ohio State. As founder and now director emeritus of the university's Food Industries Center, he became nationally known for providing qualified graduates to work in the food industry as well as a practical research base to improve the industry's competitiveness.

A native of New Hampshire, he received a bachelor of science in horticulture from the University of New Hampshire and master of science and doctorate degrees from Ohio State. He joined the Ohio State faculty in 1946 as an instructor in food processing and technology and was named full professor in 1958. He became director of the newly formed Food Industries Center in 1981, serving until his retirement in 1985.

During his tenure on Ohio State's faculty, he advised 324 undergraduates, 134 master's degree students, and 72 Ph.D. candidates. He has written six books, co-authored 10, and published more than 160 scientific, technical, and trade journal publications. He continues to serve as executive director of Mid-American Food Processors Association and has his own firm, WAGCO Consultants to the Food Industries.

Dr. Gould has long been an enthusiastic advocate for Ohio State's food technology programs. He was instrumental in obtaining funding for the construction of Howlett Hall, which now houses the Food Industries Center. As chair of the center's Endowed Haas Chair Committee, he raised more than \$1 million to form one of the nation's first endowed research chairs in food processing and technology. He is currently serving as honorary chair of the New Food Science and Technology Building Fund Drive.

Among the many honors conferred on Dr. Gould are the American Society of Horticultural Science's prestigious Norman F. Childers Award for Distinguished Graduate Teaching; the Ohio Food Processors' H.D. Brown Man of the Year Award; and the International Food Processing Machinery and Suppliers Association's Leadership and Service Award. He was inducted into the Ohio Agricultural Hall of Fame in 1989 and the Ohio State Farm Science Review Hall of Fame in 1991.

It is with profound gratitude that Ohio State adds one more honor to those already received by this exceptional member of the university community.

Recipients of Honors

Susan J. Insley
Distinguished Service Award

Susan J. Insley is executive vice president and principal of Cochran Public Relations, a Columbus-based public relations and strategic communications firm.

Prior to joining Cochran in 1996, she was one of the highest ranking women leaders in the American auto industry as senior vice president of Honda of America Manufacturing. In this capacity, she was responsible for corporate communications, company facilities, government and community relations, and legal departments. She also served as liaison with the Transportation Research Center, Inc., managed by Ohio State's College of Engineering, and was director of the Honda of America Foundation.

A native of Bellefontaine, Ohio, Ms. Insley received a bachelor of science in secondary education from Ohio State in 1967. She taught for one year at Westerville High School before becoming a legislative assistant for U.S. Representative Clarence J. Brown in Washington D.C. from 1969-74.

After receiving her J.D. degree from Ohio Northern University in 1976, she joined the Columbus legal firm of Vorys, Sater, Seymour & Pease. As a practicing attorney, she provided legal service for Honda of America in a variety of corporate matters. She joined Honda in 1985 as vice president for corporate planning, becoming senior vice president in 1990.

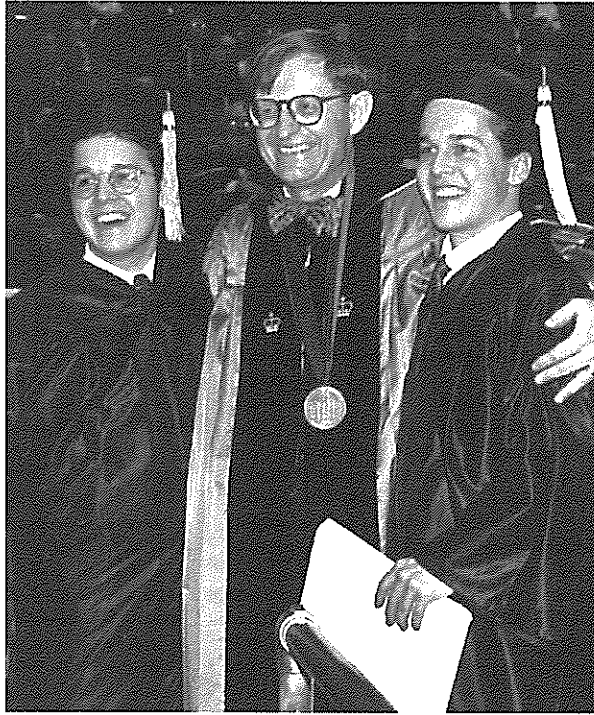

Ms. Insley has remained actively involved with Ohio State and is a member of the Presidents Club. From 1986 to 1993, she was a member of the University Hospitals Board, serving as chair from 1990-92. During this time, she was a strong proponent for the medical center's regional hospital consortium, which now numbers 12. She was instrumental in enhancing the staff recognition programs and helped establish several outreach programs for the Columbus community.

She is currently vice chair of the Ohio Northern University board of trustees and a director of the Columbus Area Chamber of Commerce, and the Ohio Science and Technology Council.

Ms. Insley received an honorary Doctor of Laws degree from Ohio Northern University and was elected to the Ohio Foundation of Independent Colleges Hall of Excellence in 1993. She was named an honorary engineer in 1992 by Ohio State's College of Engineering. In 1992, she was selected as a Woman of Achievement by the Columbus YWCA for her work with "I Know I Can," a program to encourage students to aim for higher education.

Ohio State gratefully recognizes the commitment and contributions of this loyal alumna.

A Message From President Gee

Most of us measure our lives in year-long cycles, beginning in January and ending in December. But those of us in education observe a different calendar—one in which the year-end celebration is a graduation, and the days are counted in quarters or semesters.

For college students, the cycle begins that first autumn when they arrive on campus and advances through classes and exams, vacations and summer jobs, until commencement day finally arrives. And that day comes once each quarter when students from Ohio State graduate to the cheers of proud relatives and friends.

Now, these newly minted alumni will look back briefly and move on, shifting into the day-to-day rhythms of hoped-for employment. They will leave behind late nights filled with cold pizza and hot debate. No more 7:30 in the morning classes, but instead a 7:30 commute to the office. No more papers due for class, but reports due for work. They will trade their backpacks for briefcases, their ball caps for business suits.

There is no doubt that they have been changed by their college experience. Those years spent at a major research university represent not only a growth in knowledge, but a growth in wisdom and common sense—a maturing process that prepares a student for

life in the “real world.” And that world does not stand still.

We need only look at the capitals of the world and the corporations of America to realize that powerful forces have been at work. During the time it has taken this most recent crop of graduates to complete their educations, the Soviet Union has come apart, Germany has come together, ethnic warfare has erupted, trade barriers have fallen, and once-mighty businesses have been brought to their knees by economic forces.

Today’s graduates are being launched into a world made smaller by the media and larger by the scope of our global dilemmas: the environment, ethics, illiteracy, racism, sexism, revolution, protest, famine, and poverty.

The world is crying for the compassion and creativity of our graduates. And we need their considerable energy and ingenuity to resolve conflicts, regain civility, and restore our spirits.

That is why, for all of us, graduation is a time that renews our hope in the future. As I preside over Ohio State’s commencement, I am impressed by the intelligence, dedication, and vigor of our new college graduates, young and not so young. And I feel an old, familiar feeling: optimism. Optimism about the actions our industries are taking to regain a competitive edge. Optimism about the adjustments education is making in response to a changing society. And most of all, optimism about and faith in this new generation that is about to take its place in our society.

Today as many of them leave school behind, their memories are bittersweet. One of Ohio State’s engineering graduates sent me a letter that, I believe, captures the great joy we share in this special rite of passage and the strength of the educational process. She wrote, “There will be at least one chemical engineer with a tear in her eye as the national anthem is played, a lump in her throat as her college is introduced, a smile on her face as she gets her diploma, and a cry of joy as her father hugs her and says, ‘I am so proud of you!’”

It is a pride in which we can all share. I thank this graduate, and thousands like her, for all they will bring to our society. They are very bright. They work very hard. They have learned to live without security, but they continue to seek it. They are ready not only to cope with change, but to create change. And they have turned away from “me-ism” and are again seeking ways to help their fellow human beings.

I am confident that when this generation assumes leadership, America will be in very good hands.

Congratulations and Welcome to the Alumni Association

Congratulations on receiving your degree. You may not notice the difference, but today, along with hundreds of your colleagues, you have joined the ranks of Ohio State alumni. For you, one era has passed, and another is about to begin.

You are a member of the Buckeye family and partner in the enterprise, carrying the reputation of Ohio State through your activities and accomplishments. You exemplify the fruits of a good education: a critical mind, a discerning spirit, higher values, a sense of commitment, and the privilege of service.

You can assist the university in many ways. You can recruit new and highly qualified students. You can represent Ohio State well through personal and occupational achievements. You can participate financially through the Development Fund. And you can work in an advisory capacity with the university to improve it and its programs to better prepare today's students for tomorrow's citizenship.

We extend to you a year's complimentary membership in the Alumni Association. Included is a year's subscription to the *Ohio State Alumni Magazine*, which will keep you informed of the university's continuing pursuit of excellence and help you keep in touch with your friends and classmates.

To you, your family, friends, and all those who helped you reach this day go our best wishes. You are joining a great family of Ohio State alumni working together to make a difference around the world.

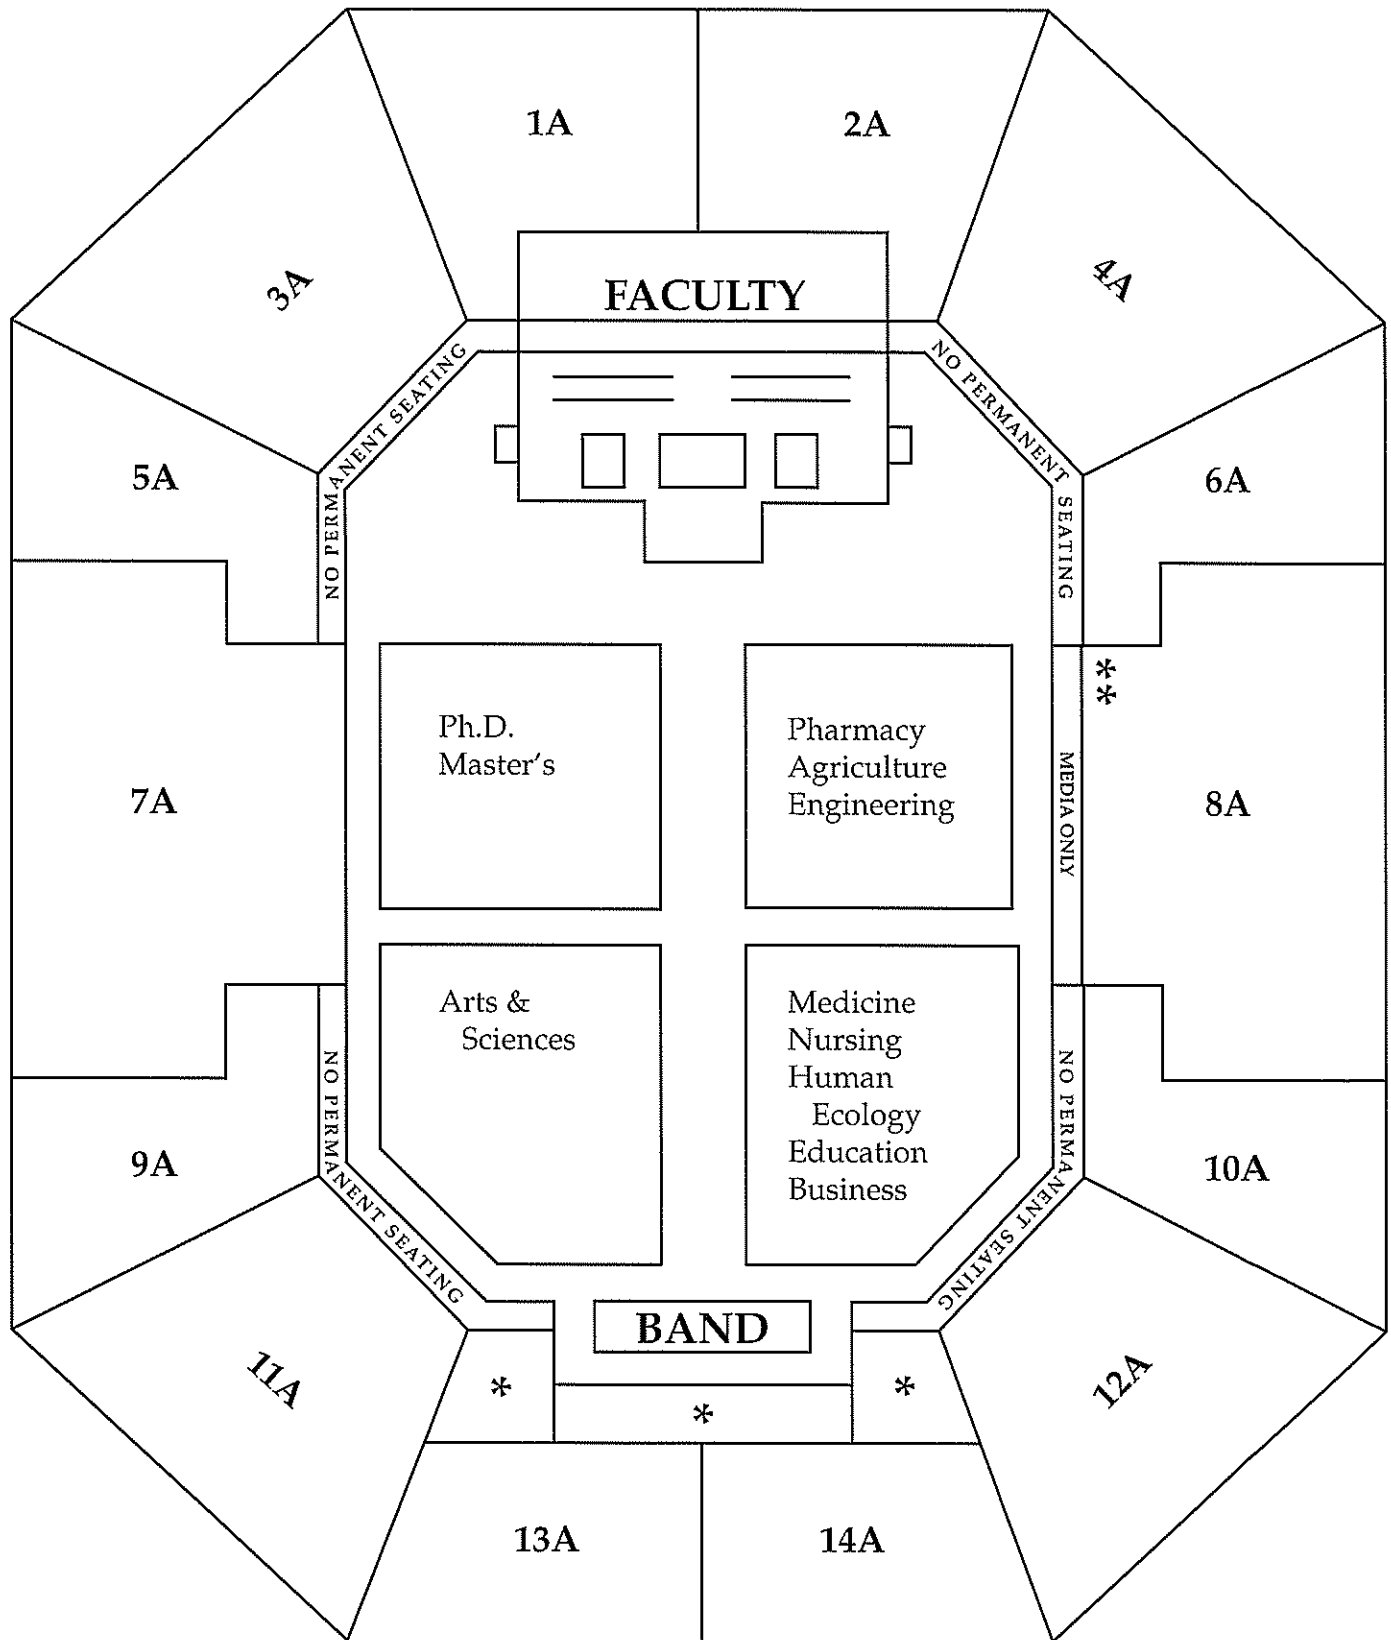

Cordially,

Graduates with Honors

Criteria for graduating with honors are as follows:

Summa Cum Laude designates those graduating in the top 3% of the class.

Magna Cum Laude designates those graduating in the top 6% of the class.

Cum Laude designates those graduating in the top 10% of the class.

With Distinction requires successful completion of a Senior Honors Thesis and graduation in the top 25% of the class.

With Honors in the Liberal Arts requires successful completion of the Arts and Sciences Honors Contract and graduation in the top 25% of the class.

University Commendation designates those whose attainment of high academic standards is judged by the college to be especially meritorious.

**This program is not an official
graduation list**

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusion of graduates' names, or may result in use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of The University Registrar, 202 Lincoln Tower, 1800 Cannon Drive, Columbus, Ohio 43210.

*denotes Distinguished Military Graduate

**denotes Distinguished Naval Graduate

The Academic Costume

The colorful ceremonies of The Ohio State University Commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In the light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns, and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard square—a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship, for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral degrees, not only indicates the type of degree, but also is lined with the official colors of the university.

The Gown

Bachelor: Black, full cut with long pointed sleeves.

Master: Black, long or short sleeves with a reshaped panel extended for each sleeve.

Doctor: Black with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

The Hood

Bachelor: Three feet long with a two-inch-wide velvet edging.*

Master: Three and one-half feet long with a three-inch-wide velvet edging.*

Doctor: Four feet in length with a five-inch-wide velvet edging and panel at the sides.

* Not usually worn by candidates for a degree.

The lining of all hoods, which is folded out, bears

the official colors of the institution granting the degree. The color of the velvet indicates the field of study:

Dentistry	Lilac
Law	Purple
Medicine	Green
Musical Arts	Pink
Optometry	Seafoam Green
Pharmacy	Olive Green
Philosophy	Dark Blue
Veterinary Medicine	Gray

Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel whose color is distinctive of the degree being received. The tassel colors are as follows:

Graduate School	Black
Colleges of the Arts and Sciences	
College of the Arts (B.A., B.S.I.D.)	White
(Others)	Brown
School of Music (B.A.)	White
(Others)	Pink
College of Biological Sciences	White
College of Humanities	White
College of Mathematical and Physical Sciences	White
College of Social and Behavioral Sciences	White
School of Journalism	Crimson
Max M. Fisher College of Business	Drab
School of Public Policy and Management	Peacock Blue
College of Dentistry	Lilac
College of Education	Light Blue
School of Physical Activity and Educational Services	Sage Green
College of Engineering	Orange
Austin E. Knowlton School of Architecture	Blue-Violet
College of Food, Agricultural, and Environmental Sciences	Maize
School of Natural Resources	Blue-Green
College of Human Ecology	Maroon
College of Law	Purple
College of Medicine	Green
School of Allied Medical Professions	Green
College of Nursing	Apricot
College of Optometry	Seafoam Green
College of Pharmacy	Olive Green
College of Social Work	Citron
College of Veterinary Medicine	Gray

The gold tassel is worn frequently by those holding the doctoral degree and by college and university administrative officers.

Honors Emblem

The Ohio State University honors emblem is a scarlet and gray tasseled braid worn over the gown. Students eligible for this curricular honor are those graduating *summa cum laude*, *magna cum laude*, *cum laude*, with distinction, with honors in the liberal arts, and with honors in pharmacy.

Photographs

Designated areas in the first row of the mezzanine are roped-off for picture-taking by guests. No permanent seating or placement of video cameras is permitted in these areas. Guests are asked to be courteous and respectful of all those wishing to take photographs. Only press photographers are permitted on the arena floor.

Complimentary Programs

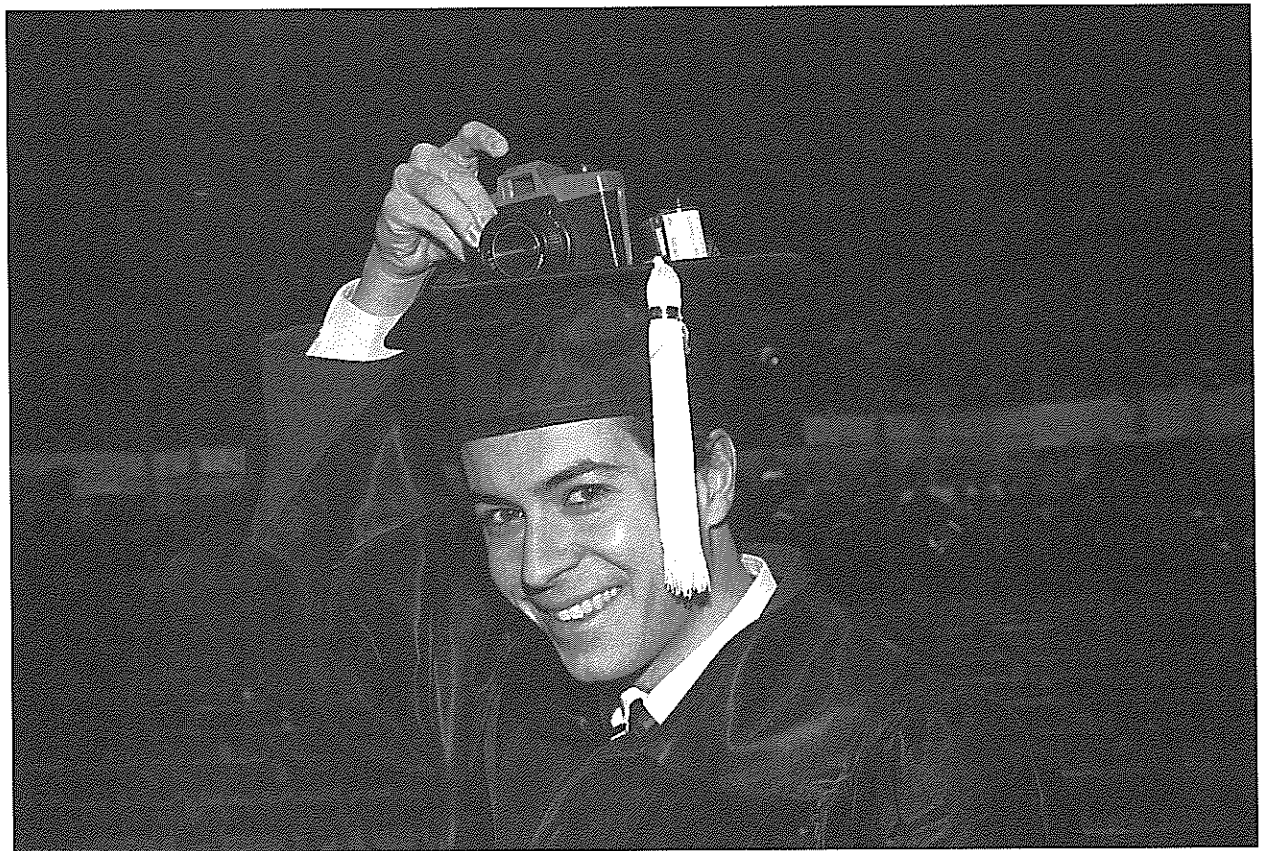

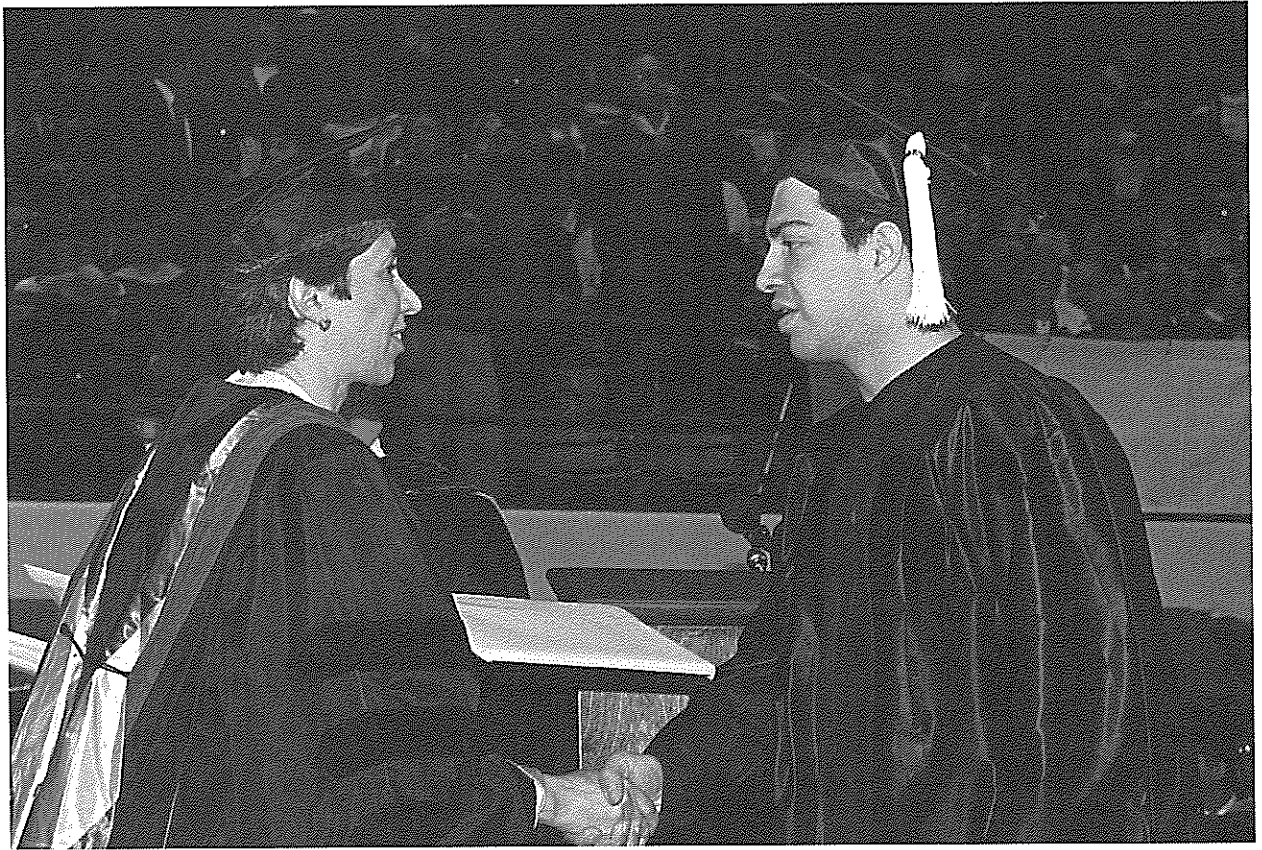

A limited number of programs are available on a first-come, first-served basis. Requests should be sent to the Office of Commencement and Special Events, 1120 Lincoln Tower, 1800 Cannon Drive, Columbus, OH 43210-1230.
